

Betelhem Lemma, Full Stack Web Developer

Silver Spring, MD, United States, +1(512) 226-3807, BtNEGUSSIE@gmail.com

PROFILE

- Full Stack Web Developer with hands-on technical experience in building websites and enterprise applications through all phases of the Software Development Life Cycle. Fully versed in designing and developing web and mobile applications through the entire SDLC using advanced and latest technologies such as Node JS, MySQL, Bootstrap, React and Express JS.

PROFESSIONAL EXPERIENCE

March 2022 - Present

Full Stack Web Developer (MERN) Fellow, Evangadi Tech

Washington, DC

- Learned today's cutting-edge development technologies, through an advanced curriculum and project-based structure.
- Built semantically structured full-stack web applications using HTML, CSS, JavaScript, jQuery, Object-Oriented Programming, Git, React, and Node.
- Collaboratively and independently designed and built web applications with front-end and back-end development.
- Implementation of a responsive UI which will scale itself depending on the device, platform and browser using React.JS, HTML5, CSS3, Material UI and Bootstrap.
- Testing front -end code in multiple browsers to ensure cross-browsers compatibility.
- Successfully completed an immersive and rigorous twenty-five (25) weeks of Full Stack Web Development course.

Projects

- My personal portfolio website, Bettywd.com, showcases my skills and passion for web development. Here are some cool projects I've worked on:
- Designing and developing single page applications using HTML5, CSS3, JavaScript, React.JS and Redux
- Building an Amazon-clone like e-commerce store with both front-end and back-end functionality using react.
- Developing a Netflix-clone like online video streaming service using React.
- Recreated Apple's website using React, creating different website sections and integrating Apple's YouTube channel with the website using REST API.
- Working on CRUD applications using MERN Stack (MongoDB, MySQL, Express, React.JS and Node.JS) and building REST- based API.
- These showcased projects that highlight both my technical skills and creative abilities. You can explore them further at Bettywd.com to see firsthand the results of my web development expertise.
